

52X *PLUG IN GAUGE*
Series

The World's First!

No Piping or Wiring Necessary!

(Designed for use with Diagnostic Monitoring Connector)

VW GOLF V Triple Gauge Type BOOST, WATER TEMP and OIL TEMP

52X Series *PLUG IN GAUGE*

Easy-to Install

Next Generation Analog Gauges.

The gauges in our 52X Series are the world's first multi-connected fully independent operating system; they need no piping or wiring and easily install by simply connecting to the diagnostic monitoring connector thereby guaranteeing no worries about leakage of air or liquid. Moreover, the perfect sleek looking fit can be realized by using the specialized gauge holder and panel designed for your model of car. (Some models excluded)

Easy Installation

One-step easy installation is possible; simply connect to the diagnostic monitoring connector.

* It is necessary to connect the power source to the Fuse Box.

LED Illumination

Illumination by high contrast highly luminous LED.

Super Luminous White LED Illumination

Stepping Motor Drive

The gearless Stepping Motor Drive provides an ultra-quiet quick high-performance display.
