

**No Troublesome Piping or Wiring!
Multi-Purpose Gauge for Each Type of Engine
with Easy OBD Connection!**

DUAL GAUGE **PRO**

for MAZDA SKYACTIV-D

DEMIO (DJ5)
CX-3 (DK5)
CX-5 (KE2)
AXELA (BM2)
ATENZA (GJ2)

for HYBRID Cars

AQUA (NHP10)
PRIUS (ZVW30)
PRIUS α (ZVW40)
COROLLA AXIO (NKE165)
FIT HYBRID (GP5)

for 86 / BRZ

86 (ZN6)
BRZ (ZC6)

for BMW / MINI / VW / AUDI

116i (F20)	420i (F32/36)	MINI COOPER S (R56)
120i (F20)	523i (F10/11)	GOLF7 (TSI)
M135i (F20)	Z4 20i (E89)	POLO (6R)
M235i (F22)	X1 20i (E84)	THE BEETLE
320i (F30/31)	TT (8J)	

DPB-M

for MAZDA SKYACTIV-D

Specially designed boost display for MAZDA SKYACTIV-D model cars for which using ISO signal made it impossible.

Analog Display	Boost
Digital Display	Water Temp/ Voltage / Oil Temp
Illumination	White Blue

DPT-H

for HYBRID Cars (TOYOTA/HONDA)

The world's first meter designed for hybrid cars for easy viewing of both engine and motor rpm.

Analog Display	RPM/ Motor RPM
Digital Display	Water Temp/ Voltage / Motor RPM
Illumination	White Blue

(Patent pending)

DPW

for 86/BRZ

Scale designed to match maker gauges, this can switch illumination color between red and white and comes with Insert Holder for installation to air vents.

Analog Display	Water Temp
Digital Display	Voltage/ Oil Temp
Illumination	White Red

DPB-E

for Euro Car like as BMW/VW

Adoption of start detector circuitry makes installing easier with OBD connection and compatible with a wide variety of model cars by the specialized Euro-model communication. The illumination can switch between white and BMW-style orange.

Analog Display	Boost *1
Digital Display	Water Temp/ Voltage/ (Oil Temp *2)
Illumination	White Orange
Additional Sensor	Boost/ Oil Temp

DPB

Boost Meter (CAN)

Standard gauge compatible with a wide range of car models by multiple communication systems. New method adopted to suppress the needle deflection of intake pulsation of light cars.

Analog Display	Boost
Digital Display	Water Temp/ Voltage/ (Oil Temp *2)
Illumination	White Blue
Additional Sensor	Boost/ Oil Temp

DPT

Tachometer (CAN)

Standard gauge compatible with a wide range of car models by multiple communication systems.

Analog Display	RPM
Digital Display	Water Temp/ Voltage/ (Oil Temp *2)
Illumination	White Blue
Additional Sensor	Oil Temp

*1 Only positive pressure displayed in BMW and MINI (some models)
*2 Sensor for displaying Oil Temp sold separately

Easy Installation

Simple coupler connection to Diagnostic monitor connector.

Dual Display

Indicator needle and digital display provide easy viewing of multi-data.

Black Titanium Bezel

High quality black titanium bezel.

2-Color Illumination Switch with 3-step Dimmer

Illumination switch allows selection between two colors and brightness adjusted with three-step dimmer.

Meter Holder included

The included full cover type holder allows seamless installation to a number of places.

Compatible Car Models

For details, see the Fitting List.

Peak Hold

Save and display each peak reading after engine starts

Additional Sensor

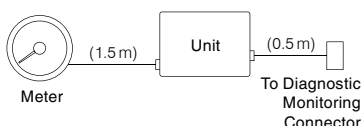

If the use of a sub computer makes getting correct readings impossible or if Boost data cannot be received via OBD, we offer additional separately sold sensors to display correct Boost data. (this meter cannot install to the car model that is not listed on compatibility list)

DUAL GAUGE PRO

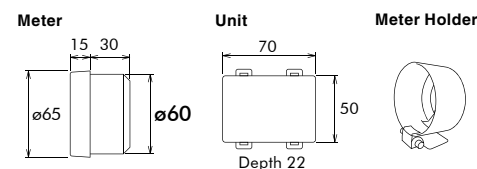

¥28,000
for each

Basic Wiring

Size and Accessories [Unit : mm]

Wiring Parts, User's Manual, etc.

DPW comes with also Insert Holder.

Sold separately

Temperature Sensor	DTS	¥3,800
Boost Sensor	DP-BS	¥7,800
*Additional sensors are normally unnecessary; use only as needed.		
Insert Holder	IH-60	¥2,381
